TAP Academy

Sept 2023 - Feb 2024

*Bangalore*

- Acquired foundational knowledge in full-stack web development through a comprehensive course.

## PROJECTS

**A Restaurant Exploration Application.** Technologies Used: HTML, CSS.

Independently Implemented a Zomato inspired website, diving into properties, tags and responsive design in Visual Studio. Showcasing my proficiency in HTML and CSS.

**A Simple TIC-TAC-TOE USING JAVA FUNDAMENTALS :**

This mini project showcases a two-player Tic-Tac-Toe game implemented in JAVA, designed to strengthen understanding of key OOPs principles. It highlights the practical application of arrays, inheritance, abstraction, and constructors within a familiar game context.

**A RANDOM QUOTE GENERATOR:**

This interactive project uses HTML to structure the page, CSS for visual styling, and JAVASCRIPT to generate and display random quotes with a click, offering daily inspiration.

**A TO-DO LIST:**

A simple To-do list app built with HTML and CSS for a clean and organized task management experience.

**A personal PORTFOLIO :**

A visually engaging one-page website showcasing my skills and education, built with HTML, CSS and JAVASCRIPT for animations and responsiveness.
